COUNCIL CHAMBERS REMODELING

Mr. Arlie Preszler presented two alternate plans for the remodeling of the Council Chambers for Council consideration. He reviewed the plans stating that the first plan was symmetrical in arrangement and more traditional while the second plan had been designed with the axis on an angle using a different approach. The Council considered the two plans and discussed the placement of maps, visual aids and overhead projection equipment. Also discussed was the placement and elevation of the Council table and the seating of the staff members.

After the discussion, Councilman Schaffer moved the Council approve the symmetrical plan including a Council table of semi-circular design large enough to accommodate the seating of nine Planning Commissioners, and authorize the architect, Mr. Preszler, to proceed with the plans for remodeling of the Council Chambers. The motion was seconded by Councilman Kirsten and carried.

The City Manager reported that he had discussed the painting of the Chambers with Mr. Marlo Kerner but a definite color had not been decided. The Council then requested the City Manager continue working with Mr. Kerner to develop a color scheme for the Chambers.

The meeting was adjourned on motion of Councilman Kirsten at approximately 8:35 a.m.
